# Call for PhD applications

## in Information Technology

The Dipartimento di Elettronica, Informazione e Bioingegneria (DEIB) is one of the largest European ICT departments, for size and for scientific production. The research is the main goal of departmental activities and is conducted according to the highest international standards.

#### FOR MORE INFORMATION:

DEIB: [www.deib.polimi.it](http://www.deib.polimi.it)  
IT PhD Program: <http://dottoratoit.deib.polimi.it>  
PhD secretariat: [dottoratoinginfo-deib@polimi.it](mailto:dottoratoinginfo-deib@polimi.it)

#### IT PhD PROGRAM

Our PhD course in Information Technology offers advanced training and research activity in the fields of Computer Science and Engineering, Electronics, Systems and Control, Telecommunications: more than 50 positions, most of which are covered by scholarships from public Institutions, private Companies or by the Department.

At DEIB, young graduates in scientific disciplines can find an international and stimulating environment, where core research goes in parallel with interdisciplinary initiatives. The joint projects with renowned international research institutions make it easier to enter the world of international research, thanks to interaction with scientific personalities and visiting periods in laboratories worldwide.

#### CALL FOR APPLICATIONS

The call for applications is available on PhD School website ([www.dottorato.polimi.it/en](http://www.dottorato.polimi.it/en)) and the deadline is 27th May 2016. The PhD Program starts on the 1st of November 2016. Please refer to the official call for details on the application procedure and requirements. Preliminary contacts among applicants and faculty members of DEIB are highly encouraged. Please take a look at the list of professors of the department, at their personal web pages and at the research labs on the DEIB website.
