CORPORATE BROCHURE

MEDACTA CORPORATE

Medacta International is a world leading manufacturer of orthopaedic implants, neurosurgical systems, and instrumentation. Medacta's revolutionary approach and responsible innovation have resulted in standard of care breakthroughs in hip replacement with the AMIS system and total knee replacement with MyKnee patient matched technology. Over the last 10 years, Medacta has grown dramatically by taking a holistic approach and placing value on all aspects of the care experience from design to training to sustainability. Medacta is headquartered in Castel San Pietro, Switzerland, and operates in 30 countries.

"Medacta is unique in its focus on surgeon education and training, and its approach to collaborating with the surgical community to improve the art, science,

Redefining Better in Orthopaedics and Neurosurgery

Medacta International is a Swiss company developing, manufacturing and distributing orthopaedic and neurosurgical medical devices worldwide. Founded in 1999 with a vision to create a better patient experience for people needing joint and spine treatment, Medacta specializes in highly innovative minimally-invasive, personalized approaches designed to bring renewed hope and optimism to patients.

Medacta is a recognized leader in Hip Replacement with its proprietary AMIS® (Anterior Minimally Invasive Surgery) product offerings and in Knee Replacement via MyKnee® Patient Matched 3-D printing technology. At the 2014 North American Spine Society (NASS) Annual Meeting, Medacta's new MySpine® Patient Matched product was awarded "Best New Technology - Posterior Thoracolumbar Spine Treatments".

Through medical education, our innovation leads to better results for both patients and the healthcare system.
