

**Living in a world of Assisted Experience**  
Politecnico di Milano  
December 10, 2018 – 12:30  
Sala Conferenze «Emilio Gatti» - DEIB

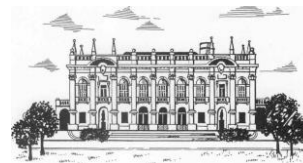

**Umberto Poschi**  
Google Italia  
Head of Data Science and  
Business Insights

**POLITECNICO**  
MILANO 1863

*Artificial Intelligence makes it easier to do things every day, whether it's searching for photos of people you love, breaking down language barriers, or helping get things done with your own personal digital assistant. It's also providing new ways of looking at old problems and helping transform how we work and live, in ways that we believe will benefit everyone.*

**Where:** Politecnico di Milano – Sala Conferenze «Emilio Gatti»  
DEIB, via Ponzio 34/5

**Registration:**

<http://tinyurl.com/commtechpolimi>

**CommTech Talks @ POLIMI** are a series of seminars and panels organized weekly by the study program in **Telecommunications Engineering** and the master of science track in **Internet Engineering** of **Politecnico di Milano** for stimulating the networking between students and people from industry and research.
