

A close look to

network technology

Politecnico di Milano and Vodafone

invite you to the workshop

A close look to 5G network technology

May 31, 2019 – 9am-1pm

Politecnico di Milano, Conference Room Emilio Gatti, Building 20, via Ponzio 34/5, Milano

An overview of the 5G technology presented by the experts who have been experimenting it in the 5G trial in the metropolitan area of Milan. From the new radio interface, to network architecture, millimeter wave technologies, optimization and testing.

Registration: <https://tinyurl.com/5Gpolimi>

- 9:00 am Registration
- 9:15 **Introduction and 5G overview**, Antonio Capone (POLIMI)
- 9:30 **Vodafone 5G Trial in the metropolitan area of Milan**, Marco Zangani (Vodafone)
- 9:45 **5G New Radio**, Alessandro Goia and Tommaso Vio (Vodafone)
- 10:25 Coffee Break
- 10:40 **5G Core Network and Slicing**, Cinzia Sartori (Nokia)
- 11:20 **Mm-wave technologies for 5G**, Renato Lombardi (Huawei)
- 12:00 **5G Measurements and Optimization**, Marco Neri (Rohde & Schwarz)
- 12:40 **Testing 5G**, Paolo Marini (Prisma Telecom Testing)
- 1:20 pm Light Lunch

(coffee break and lunch offered by Rohde and Schwarz)
