Giulio Boccaletti

Scientific Director
CMCC Foundation
Centro Euro-Mediterraneo sui
Cambiamenti Climatici

ABSTRACT

Water is the expression of the climate system on the landscape. Its management is also a fundamental platform for development. Material conditions are now changing faster than ever before. How should we adjust to what comes next? A personal and professional reflection on what the past tells us about what to expect in the near future.

WATER IN THE TWENTY-FIRST CENTURY

BIOGRAPHY

Giulio Boccaletti, PhD, is the Scientific Director of CMCC and an expert in water and environmental strategy. With a PhD from Princeton, he has worked at MIT, McKinsey & Company (where he co-founded its Water Practice), and The Nature Conservancy as Chief Strategy Officer. He co-founded Chloris Geospatial, teaches at Oxford University, and is an Executive Producer for a PBS/BBC series on nature. Boccaletti is also a published author, with his book **Water: A Biography** recognized as one of the best books of 2021 by **The Economist**.
